Sustainability Champion

This award acknowledges an individual or business driving meaningful sustainability initiatives, including ethical sourcing, waste reduction, and practices that benefit both the environment and coffee-growing communities. This award recognises individuals and brands creating real, measurable impact in the Australian coffee community.

Recognises: Leaders in environmental and social responsibility

Criteria

1. Describe your (or your company's) approach to environmental responsibility within the Australian coffee community. What core principles or goals guide your sustainability initiatives?
2. Outline the key initiatives, technologies, or practices you have implemented to reduce waste, energy use, or environmental impact. What challenges did you face, and how did you overcome them?
3. Provide evidence of the measurable outcomes of your sustainability efforts (e.g., reductions in waste, energy consumption, emissions, or resource use). How do you track and evaluate success?
4. How have your actions positively influenced the broader coffee community – such as suppliers, customers, staff, or local communities – toward more sustainable or socially responsible practices?
5. How are you demonstrating leadership in environmental sustainability within the coffee industry?
6. What future goals or innovations are you pursuing to further advance sustainability and social impact?
